OPENED May, 1862.

CLINTON HALL, Astor Place, New York.

B. FRANK. PALMER,

Surgeon-Artist to the Government Hospitals,

has the honor to announce that, in order to supply the unexampled demand of the ARM and NAVY for the ARM and LEG, he has greatly increased his facilities at the NATIONAL STUDIO IN PHILADELPHIA, and opened capacious BRANCHES in NEW YORK and BOSTON.

THREE THOUSAND PALMER LIMBS have been commenced, and the Inventor will be enabled to adjust them at the rate of one hundred per month, if required. They will be provided for mutilated soldiers *of very limited means*, at prime cost, and in *extreme cases at less than cost*—it being the design to supply *all patriotic men who lose limbs in the country's service.*

The PALMER LIMBS will be adjusted for persons in Civil life on the usual terms. Nearly Five Thousand adjustments have been made, which furnish a criterion by which to judge of the merit of the inventions.

All persons having limbs furnished by PALMER & Co., or *by any person representing them*, will, in the future, address the firm, or the inventor, when in want of duplicate limbs, or any other professional service.

CAUTION.—NO OTHER PERSON (whether formerly in the firm, or in the employ of PALMER & Co.) has now the right to construct or repair the PATENT LIMBS for the COMPANY in NEW YORK

Inquire for (or address) the inventor at the NEW OFFICE, on the ground floor, CLINTON HALL.

Side View of One Bar.

L. B. TUPPER'S

FURNACE GRATE BAR,

For Steamships, Steamboats, Locomotives, Stationary Furnaces, &c.

PATENTED SEPTEMBER 11, 1860.

THE SUPERIORITY OF THESE Bars over others is owing to the distribution of the metal in such a manner that all strain in consequence of expansion from heat is relieved, so that they will neither warp nor break. They give, also, more air surface for draft, and are at least one-third lighter than other bars, and more saving of fuel.

U. S. MARSHAL'S OFFICE. }
NEW YORK *Nov.* 6, 1861. }

WM. GRAY, Esq., DEAR SIR: Two months ago my head was almost entirely *bald*, and the little hair I had was all *gray*, and falling out very fast, until I feared I should lose all. I commenced using your *Hair Restorative*, and it immediately stopped the hair falling off, and soon restored the color; and after using two bottles my head is completely covered with a healthy growth of hair, and of the same color it was in early manhood. I take great pleasure in recommending your excellent *Hair Restorative*, and you may also refer any doubting person to me.

PATENT AGENCIES.

AMERICAN & FOREIGN PATENT AGENCY. Established 1838, Nos. 119 and 121 Nassau St., New York.

LEMUEL W. SERRELL,

Solicitor of Patents, Prepares Mechanical Drawings, Specifications, Caveats, Assignments, etc., and transacts, with promptness and despatch, all business connected with procuring Letters Patent for New Inventions, in the United States, Great Britain, France, Austria, Holland, New Brunswick, etc.

MESSRS. MUNN & CO., PROPRIETORS OF the Scientific American, No. 37 Park row, New York, continue to solicit Patents in the United States, and in all foreign countries, on the most reasonable terms. Consultations and pamphlets of advice in English and German free on application to the office. Messrs. Munn & Co. have been engaged in soliciting Patents over sixteen years, and more than Fifteen Thousand Patents have been granted through their agency.

Stetson's Patent Agency,

No. 5 TRYON ROW BUILDING,

(Near the City Hall,)

NEW YORK.

THE SUBSCRIBER PREPARES, OR CAUSES to be made under his personal supervision, the Drawings, Specifications, Arguments and all papers required in the making and properly conducting of Applications for Patents, or in the Re-issue or Extension of Patents. An efficient and reliable agent is employed in Washington, whose active co-operation is availed of in emergencies, besides which a monthly visit is made by the subscriber in person to the Patent Office, for the purpose of consulting with the officials, examining references and models, and verbally explaining and arguing points. Every proper measure is employed in difficult cases, and patrons may rely on a thorough and careful transaction of all business undertaken. Influential Agents are retained in London and Paris, and Patents are secured, and advice and aid in introducing inventions furnished, in all countries where such privileges are granted.

The Subscriber opened this Agency in 1855, and has had the good fortune not only never to have any patent which was procured through his aid, or any assignment or other paper which was prepared by him or under his supervision, prove defective in the courts, but to have given his clients in almost every instance so clear a title, and to have the same so distinctly understood, as to avoid litigation.

He respectfully offers his services to testify in the courts on scientific points, examine the validity of letters patent, give opinions on questions of infringement, and aid in the preparation of suits at law or in equity on patent matters. Charges will in all cases be reasonable, and will be agreed on beforehand, if desired.

Detail working drawings of Machinery will, as heretofore, be prepared at this Agency, when any special occasion exists for requiring such services.

New York, May 1, 1862.

WEBB & TITTERTON,

(SUCCESSORS TO E. R. WEBB & CO., FORMERLY WELLS & WEBB,)

Nos. 110 FULTON, AND 16 AND 18 DUTCH STREETS, NEW YORK.

We, the undersigned, desire to call the attention of Newspaper, Book, and Job Printers to our Establishment.

WE HAVE A REPUTATION FOR FAIRNESS AND LIBERALITY,

to maintain which will ever be our aim. However, in the hope of continued success, and being convinced that the best guarantee thereof is in

KEEPING BEFORE THE PUBLIC,

we avail ourselves of this medium through which to reach those of the Craft who have not hitherto bestowed their patronage upon us,

ASSURING ALL PRINTERS THROUGHOUT THE COUNTRY THAT THEY WILL ALWAYS FIND IT GREATLY TO THEIR ADVANTAGE

to call on us before making selections elsewhere.

We will supply either new or second-hand materials, and have always a large Stock in excellent condition to offer at about half price.

Nothing but the best Hard Metal Type furnished by us. Every thing guaranteed to be of best quality.

OUR ESTABLISHMENT AFFORDS ADVANTAGES FOR EXCHANGE OF MATERIALS

superior to any other concern, which need but to be known to be appreciated. Publishers of papers requiring New Type will find that they can, by purchasing from us, in most cases trade off their old more advantageously than at any other house.

Those desirous OF EXCHANGING in any way, such as Presses, for others of a different kind, or for Metal or Wood Type, will find it to their advantage to call on us.

We desire particularly that Printers should understand that every thing in connection with their profession can be procured from us, and that we guarantee the

MOST LIBERAL TERMS THAT CAN BE OFFERED.

A large assortment of Hand and Power Presses always on hand.

Entered according to Act of Congress, in the year 1860, by H. Wilson and John F. Trow, in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 88 Allen is on the right-hand corner of Broome, hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome—hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

THE NEW ENGLAND
Mutual Life Insurance Company,

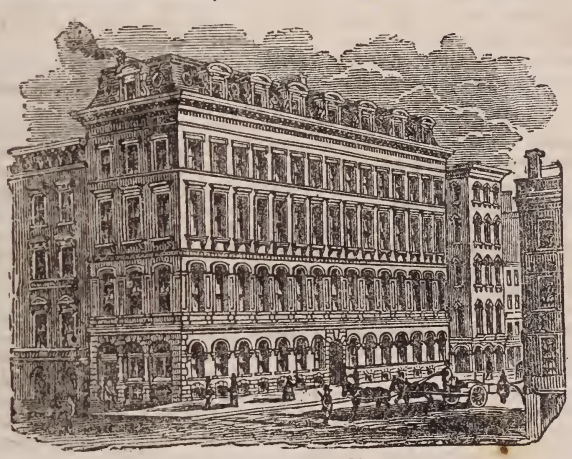
BOSTON AND NEW YORK.

ORGANIZED, 1843.

CASH ASSETS, ... $2,150,000.

Economy, care in its risks, and prudent investments, characterize this Company, and being purely mutual, insures at the lowest possible rates. If the premiums paid exceed the ACTUAL cost, the surplus is returned.

Every fifth year, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time; and the surplus funds are divided PRO RATA among all the insured. This guards against any possible loss from inefficiency on the part of the Company, and is a sure guaranty as regards the future.



Company's Building.

This is the oldest purely mutual Life Insurance Company in the United States, and has been uniformly successful, having always made, at the regular stated periods, large returns in cash dividends to all the policy holders. Last cash dividend 35 per cent.

It is strictly a benevolent institution for mutual protection, and entirely beneficent in all its workings and tendencies.

The Insurance Commissioners state the surplus of assets OVER liabilities at $350,000, being proportionately greater than any Life Insurance Company in the United States. Expenses proportionately LESS than any other Company.

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence; how much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Banks, it takes care of the depositor's money, and it virtually allows him interest upon his deposits; but it does more: what is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds* himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of support when every thing else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain;* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to

learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard: and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question it will be necessary to explain briefly the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided, have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the assured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed Companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends; which is not the case with the Stock Companies, and only partially so with the Mixed Companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual Company. He says: "Purely Mutual Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made three distributions of surplus funds, (1848, 1853, and 1858,) in *cash*, amounting to OVER $600,000. It now has an invested sum of $2,150,000, to pay losses, and a surplus of $950,000; so that it could reinsure for $1,200,000, and divide $850,000.

The New England Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divide the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums; and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1858 amounted to $335,000.

Its *standing* and *economy* are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e., in its ratio of value to liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to the community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

☞ The New England Mutual Life Insurance Co. has deposited with the Comptroller of the State of New York $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of $1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!
